

KJ-2200 Water Jetter

Jets 1 1/4" to 6" (32mm-152mm) Drain Lines

The RIDGID® KJ-2200 water jetter offers quality and dependability. The jetter propels a highly flexible hose through 1 1/4" to 6" lines – blasting through sludge, soap, and grease blockages. As you pull the hose back, it power scrubs the line flushing debris away and restores drain lines to their full, free flowing capacity.

- **Powerful:** Generates 2200 psi and 2.4 GPM for fast, effective cleaning of 1-1/4" to 6" lines. Driven by a reliable 6.5 HP gas engine with easy recoil start
- **Easy to Use:** Thrust from the water pressure propels the hose down the line. Pulse action helps navigate tight bends and traps with ease
- **Portable:** Optional H-30 cart makes transport easy. Jetter and hose reel detach quickly for indoor use, remote storage, or tight spaces
- **Convenient:** Comes standard with FV-1 foot valve—giving you full control of water flow, even when the machine is left outside
- **Quality & Dependability:** Built with a corrosion-resistant forged brass triplex pump and fewer fittings for reduced leaks, less maintenance, and greater uptime
- **Versatile:** Optional power washer package cleans cables, tools, and other heavily soiled equipment on the job

Jetter Nozzles

Propulsion Nozzles

General-purpose nozzles features three reverse thrusters for maximum propulsion to jet long distances.

Penetrating Nozzles

Three reverse thrusters provide propulsion while addition forward-pointing thrust blasts through stubborn blockages.

Drop Head Nozzle

Allows Jetter hose to navigate difficult bends and traps. three reverse thrusters provide propulsion.

Spinning Nozzles

Spinning action cleans the entire interior of pipe surface. Three reverse jets provide propulsion.

Foot Pedal

The foot pedal's ON/OFF control gives total control of the jetting action at the drain opening. It frees both hands to guide the jetting hose into the drain opening and around bends and traps.

Jet Vac

For use with all RIDGID water jetters:

The Jet Vac attaches to any portable water jetter to quickly remove (vacuum) liquid and debris from flooded basements, sumps, swimming pools, construction sites, car wash pits, etc. This cost and time saving product will move up to 60 gallons of liquid per minute.
